

## Eleven Plus Maths How To Do - Number - Addition

Example:  $276 + 36$

$$\begin{array}{r} \text{H.T.U.} \\ 276 \\ + 36 \\ \hline 312 \\ 11 \end{array}$$

### Step 1

It is essential that the units are dealt with first.

The carrying figure in this example must be written in the tens column under the answer line

There must be no clutter in the body of the sum.

Step 2  $7 + 3 = 10 + 1 = 11$

The 1 ten is put in the answer and the 1 hundred carried and placed under the hundreds column under the answer.

Step 3  $2 + 1 = 3$ . Placed in the answer.
