

## Eleven Plus Verbal Reasoning Worksheet - NUMBER CODES

<u>QUESTION</u>	
	The words HELP, PALE, MESH are coded 8527, 4365, 7564 but not necessarily in that order. Find the code for the following.  MAPLE
<u>HOW TO DO IT</u>	
	Work out which code goes with which word, then work out the code for the new word given.
<u>HINT</u>	
	Try to find distinguishing features, such as 2 words that both start or end with the same letter or words containing two of the same letter.  e.g. MALE TALE MILE TALL TIME have codes 5742, 5366, 5362, 4762, 4362. What is the code for METAL?  MALE TALE MILE TALL TIME 4362 5362 4762 5366 5742  so <b>METAL</b> becomes <b>42536</b>
<u>ANSWER</u>	
	83465
