

## Eleven Plus Maths How To Do - Addition

To make sure that all the figures are in the right column put down the decimal points directly below each other. The figures will then simply go to their correct places.

Example:  $3.26 + 4.009 + 26.037$

$$\begin{array}{r} \text{HTU. + h th} \\ 3. \\ . \\ \hline . \\ \hline \end{array}$$

$$\begin{array}{r} \text{HTU. + h th} \\ 3.26 \\ 4.009 \\ \hline 26.037 \\ \hline \end{array}$$
