

Eleven Plus Maths How To Do - Number - Division

Example 20 ÷ 5

The multiplication tables give the answers

$$4 \times 5 = 20$$

$$5 \times 4 = 20$$

$$20 \div 4 = 5$$

$$20 \div 5 = 4$$

$$\begin{array}{r} 4 \\ 5 \overline{) 20} \end{array}$$

Example 23 ÷ 5

$$\begin{array}{r} 4 \text{ rem } 3 \\ 5 \overline{) 23} \end{array}$$

or $\begin{array}{r} 4 \\ 5 \overline{) 23} \end{array}$

Here the remainder is given in fractions form when an amount has to be divided evenly.
