

Eleven Plus Verbal Reasoning Worksheet - WORD PROBLEMS

<u>QUESTION</u>	
	There are forty flowers in a garden of three different colours. If half the flowers are red and a quarter are white then how many flowers are pink?
<u>HOW TO DO IT</u>	
	Solve the word puzzle given.
<u>HINT</u>	
	Read the question carefully and work through the puzzle given bit by bit. e.g. If the names of the months each had the 2 letters nearest the beginning of the alphabet removed, what would be the first letter of the fifth month? Answer: The fifth month is May. The 2 letters closest to the beginning of the alphabet are M and A, so Y is left.
<u>ANSWER</u>	
	10
